### NOTICE TO ALL STUDENTS

### FOOD MOVEMENT RESTRICTIONS

This memorandum serves to notify all students that food secured from food vendors or fresh rations from other food outlets, be it for Breakfast, Lunch or Supper is strictly prohibited into the University premises, such as the Dining Hall, Hostels, and Classrooms.

This has been necessitated by gross violation of Article 49.1.2 in the 2021 Student Handbook which says "All meals obtained from the Kitchen are to be consumed in the Dining Hall. No student is permitted to bring food from outside into the Dining Hall or to take food from the Dining Hall to consume in the Halls of Residence", and the looming Cholera Outbreak in the country as well as other health and safety considerations.

Anyone found violating the above will be charged for gross misconduct which may warrant suspension or expulsion from the institution residence.
