

OFFICE OF THE REGISTRAR

REGISTRATION NOTICE TO ALL STUDENTS

All returning students are advised that registration for the First Semester 2021 shall be as follows:

Registration Opening	Registration Closure
Thursday, 3 June 2021	Saturday, 3 July 2021

Take note that some students assume that paying of fees means that the student is automatically registered. This is not the case, all students must ensure that after paying fees, they register online on their portals. Registration applies to **all** students and to **every** semester, i.e. students on attachment are required to register for both semesters. It is the student's responsibility to ensure that they are registered. All registered students must also ensure that they have paid their medical aid fee so that their medical aid cards can be processed.

Students can **only** register upon payment of 60% of the total First Semester 2021 fees. The full fees must be paid by **10 July 2021**.

The University has generously extended the Registration period and effected the above payment plan to cater for all circumstances, and after this deadline no registration cases will be entertained.

No students will be allowed into the examination venues without being registered and fully paid up.

Be guided accordingly.

MR I CHINYEMBA
